DETAILED ACTION

Notice to Applicant

1. In the amendment filed 2/4/08, the following has occurred: Claims 1, 3, 6, 8, 15 and 27 have been amended and claims 2, 5, 7, 10, 16-26 and 28-38 have been canceled. Now claims 1, 3, 6, 8, 15 and 27 are presented for examination.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Specification

3. A new abstract of the disclosure is attached on a separate sheet.

Allowable Subject Matter

4. Claims 1, 3, 6, 8, 15 and 27 are allowed. The following is an examiner's statement of reasons for allowance: The primary reasons for the allowance of claims 1, 3, 6, 8, 15 and 27 is the inclusion of the limitation in the claims, which is not found in the prior art references, of a system for creation of certificate of insurance that prevents creation of an unauthorized certificate of insurance comprising: creating a certificate of insurance with insured name, address and insurance policy details accepted from the first user, and the certificate holder name address and certificate purpose provided by the third party, as restricted in accordance with the certificate wording allowed or disallowed from the first user interface as well as permitting an approver to

Art Unit: 3626

edit and create an certificate of insurance. This along with further limitations set forth by the claims render the application allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

In related art (Choices) Choices teaches Certs OnLine that allows insurance agent to complete Certificates over the internet using only a browser.

In related art (2002/0198745) Scheinuk et al. teaches a system and method for maintaining and transmitting certificates of insurance.

The prior art made of record and not relied upon is considered pertinent to Applicant's disclosure as background material and is not of particular significance. These prior art patents fail to teach or fairly suggest a system for creation of certificate of insurance that prevents creation of an unauthorized certificate of insurance comprising: creating a certificate of insurance with insured name, address and insurance policy details accepted from the first user, and the certificate holder name address and certificate purpose provided by the third party, as restricted in accordance with the certificate wording allowed or disallowed from the first user interface as well as permitting an approver to edit and create an certificate of insurance.
